THE SECRETARY OF STATE

WASHINGTON

June 14, 1982

Dear Bill:

I have just completed a review of the work of the interagency group countering Soviet Active Measures and want to compliment the Central Intelligence Agency for its cooperation in this important task.

In Washington, the Intelligence Community has been a great help in providing rapid and comprehensive analysis of Soviet activities. Overseas, CIA stations have increased their reporting and also enhanced their liaison with local services in the active measures area.

Looking over the past year, it is clear we have made a good start. We have fashioned a workable strategy and the interagency machinery to manage the program. I see the task for the coming year to persist in the effort. We have already scored some gains in terms of greater governmental and public awareness about Soviet activities. We should be able to register further progress as we continue the program.

My appreciation again for all in the DDI and DDO who are helping in this useful task.

Sincerely,

Alexander M. Haig, Jr.

The Honorable
William J. Casey,
Director of Central Intelligence.
